# about

Since 1999, Exteria Street + Park Outfitters (formerly known as Landmark Engineering & Design) has been working with local councils, architects, property developers and designers to transform public open spaces into attractive living places.

We specialise in outfitting streets, sidewalks and parks with superior quality outdoor furniture and shade structures. Attention to detail, strict compliance with Australian Standards and a range of finishes to withstand WA's harsh environment have made us the benchmark in the industry for quality. You will find our products in almost every city and town in Western Australia.

We are based locally in Western Australia and provide a full range of services from design and project management to installation and maintenance. We are proud to be a WALGA preferred supplier.

This product guide contains only a selection of our extensive range of products. Please visit [www.exteria.com.au](http://www.exteria.com.au) to see our entire product range.

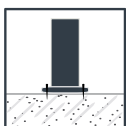

We are working to streamline our product range to make it easier for you to select, specify and order our products — this product guide is only the beginning. We are also developing some exciting new products which we look forward to sharing with you soon.

# Seats + Benches

## Mounting Options

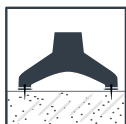

### Surface

Strong vandal resistant fixing with the flexibility to relocate product. Most suitable option for fixing to concrete surfaces.

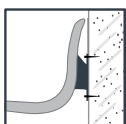

### Inground

Clean finish (no base plate) with more permanency and is not easily removed.

### Freestanding

Ultimate flexibility where regular movement is required, but can be fastened down to concrete surfaces.

### Wall Mount

Allow ease of maintenance where frequent cleaning below furniture is required.

Suitable for fixing to steel or concrete (min 100mm thick) surfaces.

## Extras

### Maxi-Rail

Protects and minimises seat slat from damage from skateboards.

### Anti-Skate Lug | Slat Divider

Eliminates any skateboard damage to the entire seat slat by deterrence.

Designs may differ to suit slat design.

### Armrest

Makes an aesthetic impact and increases user comfort. Armrest designs may vary between seat styles.

# Seats

## PARKWAY

| SEAT HEIGHT | O/A HEIGHT | O/A LENGTH |
|-------------|------------|------------|
| 450 mm      | 800 mm     | 1800 mm    |

# Custom

Exteria has local engineers and designers on hand to assist with customising street and park furniture suited to the specific needs of your project.

We take your concept through to completion. Being a registered builder, we are licensed to install shade structures in any location.

Get in touch with us today to discuss your specific project requirements.

Exteria's products are designed, manufactured and installed to endure, particularly in the extreme corrosive conditions of Western Australia's coastal climate.

Our local production and manufacturing facility in Western Australia provides our customers with ease of delivery, and full back-up and support for each product that has our name.

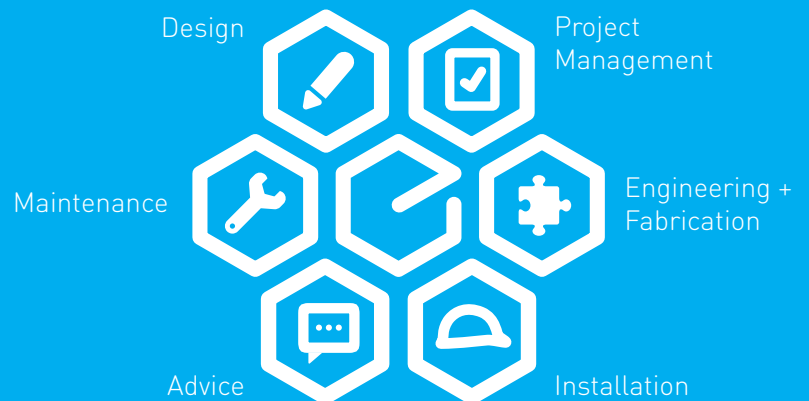

If you need a replacement part or assistance with product maintenance we are only a phone call away.

# Every product for every outdoor space

Bench Seats  
Seat + Table Settings  
Waste Disposal Products  
Bollards  
Bike Racks  
Tree Guards + Grates  
Drink Fountains  
Beach Showers
