

**LIVEABLE OPEN  
SPACES MADE EASY**

# WHY EXTERIA

We **make it easier** to create more liveable open spaces

## EXPERT ADVICE WHENEVER YOU NEED IT

It's not always easy to know what products you need for your open space.

From the type and function, to the style for the open space, or even just what will fit your budget – there's plenty of things to consider. Our project consultants are there to help when you're planning your open space project.

When you're installing we're on hand to help too, with advice and drawings to make it easy.

## WIDEST RANGE OF OPEN SPACE PRODUCTS

Whether its furniture or shelters or a complete park fit-out, we've got you covered.

Our furniture comes in a range of styles and functions, and our shelters cover everything from a single seat to a large playground.

We can also customise our products with different sizes, materials, finishes and design enhancements so you can match the unique aesthetic of your open space.

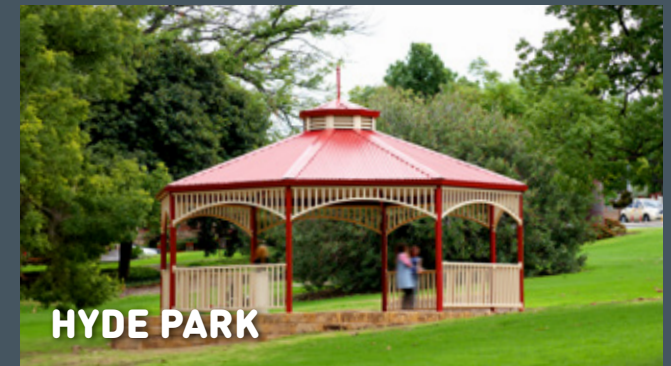

## STRENGTH AND QUALITY FOR ALL OPEN SPACES

We understand the stress on infrastructure in the public realm. That's why we don't compromise on strength or quality.

Our products have stood the test of high vandalism areas, highly corrosive environments and Region D cyclonic conditions without skipping a beat.

With Exteria, you know you're investing in assets that last, with minimal maintenance needed to keep them looking great.
